GERMANS CLAIM CHECK

Battle is Resumed in Western Poland with Germans on Offensive.

(Associated Press Bulletin.)
LONDON, Nov. 28.—2:45 a. m.—The "Daily Dispatch's" Boulogne correspondent says:
"The Germans have collected 700,000 men in the neighborhood of Arras, where they are preparing for a determined effort to break through the allies' lines."
"Heavy fighting has already begun."

(By Associated Press.)
LONDON, Nov. 28.—2:40 a. m.—Reuter's Petrograd correspondent sends an official statement which warns the public to observe caution in accepting rumors of a crushing victory. The statement says:
"These rumors are partly based on private letters from the seat of war published in certain journals."

"The headquarters staff warns the public that these rumors are not founded on facts and must be received with reserve."

"At the very beginning of the war the headquarters staff recommended the necessity of receiving with reserve all news not emanating from an official source."

"Undoubtedly the German plan to pierce our front on the left bank of the Vistula and surround part of the Russian army has completely failed. It appears from the communication of the staff commander in chief that the Germans have been compelled to fall back from Rzgów and Tuszyn through Brzeziny on Stryków under conditions most disadvantageous to them. The Germans suffered enormous losses during the retreat."

"The fighting, however, is not yet finished. The battle on the whole front is developing very favorable for us."

GREAT VICTORY OVER GERMANS BELIEVED

(Special to the Telegram.)
LONDON, Nov. 28, 3:45 p. m.—"We have succeeded in making progress at certain points," is all that Grand Duke Nicholas, Russian commander in chief, permits himself to say of the battle of Lodz in which according to information from unofficial but usually credible sources, the Russians have gained a great victory over the German army, which made the third attempt since the commencement of the war to advance to Warsaw.

This brief reference to the battle added to what was said in the previous report from Russian headquarters is taken here to mean that if the Germans have not been defeated already the Russians have drawn a cordon around them which they will have difficulty to escape.

Cordon is Tightening.
Some correspondents in Petrograd, who quote the highest military sources for their information, repeat that this cordon is steadily tightening and that the Russian guns are spreading death among the German army caught in its grip. They declare the only hope for the Germans, who are said to number 150,000, is that the two army corps, sent to their relief, may be able to break through the Russian line, which they are attacking at Lenczyca, northwest of Lodz.

That the Germans have not given up hope is shown by the Berlin official account of the operations which tonight said the Germans have recommenced their attacks and that the

STRANGLER TO DEATH.

(By Associated Press.)
CHICAGO, Nov. 28.—Emil Emsheimer, an aged manufacturer of hat frames, was strangled to death about dusk this evening in his office in the heart of the business district. The slayers had climbed a fire escape at the rear of the building. The disorder of the office indicated that he struggled hard before a piece of clothes line was put around his neck and twisted with a stick until he died. A large safe was rifled. No one had been found tonight who knows what the value of its contents were.

Of the Headquarters of a Villa Commander is Cut Off by a Broken Pipe.

(By Associated Press.)
DOUGLASS, Ariz., Nov. 28.—The water supply of Cananea, Sonora headquarters of Governor Maytorena, the Villa commander, is reported to have been cut off.

The pipe line from Ojo de Agua is said to have been broken by a flanking party sent out by General Hill, the Cananea commander at Naco. Hill's agents deny this.

Colonel Gomez is preparing to lead his troops at Agua Prieta against a Villa contingent reported to be near Guadalupe Springs.

WAGE DISPUTE

Arbitration Efforts Are to Be Begun in Chicago Monday by Federal Council.

(By Associated Press.)
CHICAGO, Nov. 28.—The western railroad arbitration case affecting ninety-eight western roads and 35,000 wage earners will open here Monday under the auspices of the federal board of mediation and conciliation. The eyes of railroad and labor men throughout the country will be turned upon the hearings which were granted upon the interposition of President Wilson last spring when the men and their employers failed to agree after exhaustive conferences.

The men will be represented by a committee of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen. The roads will appear by a conference committee of managers named for the purpose.

TRADING ON EXCHANGE REFLECTS HESITATION

And Timidity on Part of Investors and Brokers on Day of the Reopening.

(By Associated Press.)
NEW YORK, Nov. 28.—The New York stock exchange reopened its doors today for the first time in nearly four months to permit limited trading in bonds.

It was evident however that the resumption of operations even under the rigid terms imposed, which included the establishing of minimum prices, exercised a market effect upon sentiment throughout the financial district.

Trading all through the brief session reflected hesitation and timidity on the part of investors and brokers. There resulted a number of material declines from July 30 prices with a few gains chiefly in the industrial division of the bond list. At no time was there any movement suggesting serious liquidation and of foreign selling, concerning which some apprehension had been felt, there appeared to be none at all.

Dealing at all times were very moderate, this being shown by the total business of the session which amounted to the insignificant sum of \$644,000 par value, exclusive of \$5,000 in government bonds.

Zapatista Forces Mete Out Severe Punishment to Offenders When Detected.

TAMPICO IS TERRORIZED

No Credit is Placed in Rumors That a Number of Spaniards Have Been Slain.

(By Associated Press.)
WASHINGTON, Nov. 28.—Except for a few isolated cases of robbery and violence which resulted in severe punishment to the offenders as soon as detected the Zapatista forces have maintained good order in Mexico City according to advices from the Brazilian minister to the state department today.

As no mention was made by the minister of any injury to Spanish subjects, officials here do not credit the rumors that several Spaniards were killed, though telegrams of inquiry have been despatched to Mexico City for definite information. The Brazilian minister declared in his despatch that the people of Mexico City are rapidly regaining confidence and that the situation in the city was being well handled.

Villa's Arrival Uncertain.
Nothing was known by the Brazilian minister at the time he fled his despatch late yesterday as to the time when General Villa or his forces would arrive. Previously he telegraphed that agents of Villa and the convention were working in perfect harmony with the Zapata officials.

The situation in other parts of Mexico is described in official reports as quiet with the exception of Tampico, where the approach of Villa forces from San Luis Potosi has terrorized some people.

Americans Not Harmed.
Wireless reports from Tampico received today said the situation outside of the city in the oil fields was disturbed as bandits belonging to no

(By Associated Press.)
EL PASO, Tex., Nov. 28.—General Villa's advance toward Mexico City has been marked by a railroad wreck. Twenty-five soldiers were killed and 30 injured yesterday when Villa's train collided near Tula with the train of General Manuel Chao. General Chao was slightly injured.

It was denied today by Carranza officials here that General Caballero had turned over his territory on the east coast to the convention party. Villa officials said that Governor Sanchez Michoan had joined the convention government.

Both sides claim victory at Guadalupe, which has been attacked by Villa's troops.

Dodge, president of the National Association Opposed to Woman Suffrage, addressed a letter to the president today, setting out arguments against the proposal of the suffragists.

CABLE CUT

(By Associated Press.)
LONDON, Nov. 28.—1:49 a. m.—A despatch to the Central News from Copenhagen says the cable between Stradeyia, Denmark, and Libau, Russia, and between Stradeyia and Petrograd, which are the only direct cables between Denmark and Russia, has been cut in the Baltic sea 170 miles east of Bornholm. It is supposed, the correspondent says, that the cutting was done by German warships. The only communication with Russia now is by way of Sweden.

ARSON CHARGE

(By Associated Press.)
Pensacola, Fla., Nov. 28.—George Colwell was arrested today at his home in Jackson on charges of arson in connection with the burning ten days ago of the Florida state reform school at Marianna, in which ten lives were lost. It is alleged Colwell's son escaped from the institution a few hours before the fire was discovered.

HUSBAND SLAIN, FATHER ACCUSED, YOUNG WIDOW A WITNESS;
MRS. EUGENE N. NEWMAN IN PITIFUL DILEMMA AS TRIAL NEARS

William V. Cleary (top left), Mrs. Anna Cleary Newman and Eugene N. Newman.

Unique in dramatic situations that murder trails have brought about is that which will arise when William V. Cleary, the Democratic boss and town clerk of Haverstraw, N. Y., comes to trial early next month for the killing of his eighteen-year-old son-in-law, Eugene N. Newman.

It has in the harrowing position in which the dead lad's girl-wife, Cleary's daughter, will find herself. To appear upon the witness stand in defense of her father involves the necessity of aspersing the memory of her youthful husband; to ignore her father's desperate plight and remain away from the courtroom, or to take the stand and be forced to give evidence against him obviously carries with it poignant distress, the torture

of filial affection.
Newman was shot dead in Cleary's office last July.
"I dare say my father was so furious to think that Gene and I had run away and been married that he absolutely lost his head," says the young widow. "For anyone to attribute any other reason for my father killing my husband is to cast a slanderous reflection on my husband that I will not permit."

PRESIDENT TO REVIEW

Colorado Coal Strike Situation and Tell of His Efforts to Secure Agreement.

(By Associated Press.)
WASHINGTON, Nov. 28.—President Wilson on Monday is expected to announce the appointment of a commission consisting of Seth Low, former mayor of New York and president of the National Civic Federation, and Patrick Gilday, a Pennsylvania mine union official, to attempt to bring about a settlement of the Colorado coal strike troubles.

The president today began the preparation of a statement reviewing his efforts to secure the acceptance of a tentative basis of agreement by the miners and operators and of the sending of federal troops to the strike district.

Mr. Wilson has before him a request from Governor Ammons of Colorado received today asking that the federal troops be withdrawn from some of the districts concerned in the strike. Labor leaders had protested against the withdrawal of troops on the grounds that fighting and rioting are liable to follow.

Secretary Wilson of the labor department, who has had charge of efforts to bring about an agreement between the miners and operators, talked over the situation with the president today and is understood to have agreed to the naming of a commission. Secretary Garrison of the war department will confer with the president Monday regarding the advisability of withdrawing the troops.

GERMAN MILITARY CRITICS SATISFIED

With the War Situation and Claim That Good Progress is Being Made.

(By Associated Press.)
BERLIN, by wireless to Sayville, Nov. 28.—Information given out today by the official press bureau follows:

"Military critics of the Berlin newspapers consider that the success of Austrians on November 25 and of General Mackensen on the following day had made still more favorable the position of the Germans. Russian reinforcements appear to have come from Ivangorod, which Major Morait, military critic of the Berlin Terliner Tageblatt, calls a daring attempt on the part of the Russians to try to hold their positions on the Vistula river and from Galicia.

The latter movement may be followed by an advance by the Austrians over the Carpathians and toward the river Dan.

"Reports from Vienna are to the effect that the conflict along the major part of the front has assumed the character of a stubborn and long drawn battle."

Western Front Overshadowed.
"Fighting in the west has almost been lost sight of in the last few days in view of the important conflict in Poland and Galicia, the outcome of which is likely to assert an important influence on the whole situation."

Further progress of the Austrian forces in Serbia is reported from Vienna, where, it is said, that the enemy has been forced back near Lazarevatz on his center which has been broken through. Further successes are also believed to have been won along the Kolubara river south of Valdevo, the Austrians now being before Kojulovic.

British Expel Egyptians.

"On French prisoners there have been found bullets with the tops bored out and filled with white phosphorus. Wounds inflicted by such bullets are extremely dangerous as phosphorus causes burns."

"A mutiny has broken out among Serbians in Dryna division of the army. Serbian deserters are arriving in Bulgaria."

PETROGRAD, Nov. 28.—A communication given out today by the general staff of the Russian army says:

"Our troops have won important successes among the Proschocisz-Brzesko-Bochnia-Visnitsch front (in Galicia) and from thirty to sixty miles southeast of Cracow. In this locality on November 26 we routed an Austrian army taking more than 7,000 prisoners, capturing thirty cannon, ten of which were outfitted with horses, and over twenty machine guns."

"A Russian battalion at Brzesko captured what was left of the Thirty-First regiment of Hungarian Honved. These prisoners included the commandant, twenty officers and 1,250 soldiers and also the flags. We also took an automobile carrying officers of the general staff. We are continuing our energetic pursuit of the enemy."

"In the fighting at Lodz which continued November 28, we succeeded also in making progress at certain points."

"In the Carpathians our troops have attacked considerable Austrian forces."

Great Britain is Not Satisfied with Denials about South American Countries.

(By Associated Press.)
LONDON, Nov. 28.—5:05 p. m.—Since the United States declared that it was willing that England should deal direct with Colombia and Ecuador concerning alleged violations of neutrality the British foreign office has taken no further action. Nevertheless, denials that a German wireless station is being operated in Colombia and that islands belonging to Ecuador are being used by the Germans for naval operations are not accepted as finally disposing of the case.

The suggestion of South American governments that the belligerents withdraw their warships from South American waters is declared by English officials to be impracticable. The same view is taken concerning the plan for the creation of a neutral zone off the coast of South America. This, it is contended, would afford an even better chance to warships to lie in wait for steamers engaged in the over-sea trade.

The foreign office is eager to take action which would relieve South American shipping from its present handicaps, but doubts the practicability of plans already proposed.
